

AYANDA MTHOMBENI

Data Analyst | Data Analytics | Python, Excel & Power BI

Pretoria, South Africa | Open to remote work (South Africa, UK, USA) | ayandainstem@gmail.com | [GitHub](#) | [Portfolio](#) | [Data Analytics Portfolio](#) | LinkedIn

PROFESSIONAL SUMMARY

Front-end developer turned data-focused analyst, with hands-on experience structuring, visualising, and presenting data using Excel, Power BI, and Python. Background building real-world financial and productivity tools gives strong grounding in how data actually gets used: turning raw information into clear, decision-ready dashboards and reports. Comfortable working independently and remotely, with a track record of shipping live, user-facing products end-to-end. Data analytics portfolio (live dashboards & analysis examples): [ayandamthombenidataanalystportfolio.netlify.app](#)

CORE COMPETENCIES

Data Analysis | Data Visualisation | Dashboard Design | Reporting | Python | Excel (Formulas, Pivot Tables) | Power BI | Data Structuring | Problem Solving | Attention to Detail | Remote Collaboration | Independent Delivery

PROFESSIONAL EXPERIENCE

Data Analyst (Freelance)

Jan 2025 - Present

Novelora Inc (Velora Studio) | Remote

- Analysed and structured data for client and internal projects using Excel and Power BI.
- Built dashboards and reports to turn raw data into clear, decision-ready visuals.
- Used Python for data cleaning and analysis tasks.
- Worked remotely and independently, managing data-related deliverables alongside development work.

Front-End Developer & UI/UX Designer

Jan 2024 - Present

Novelora Inc (Velora Studio) | Remote

- Structured and presented financial data for Ledger, a personal finance dashboard, applying clear visual hierarchy so users could quickly interpret their numbers.
- Built and deployed data-driven, user-facing web applications end-to-end, from data structure through interface.
- Gathered requirements directly from clients and translated them into structured, working products.
- Produced reports, presentations, and technical documentation for stakeholders.
- Worked independently and remotely, managing multiple projects and deadlines with minimal oversight.

Real Estate Agent Intern

Aug 2025 - Nov 2025

Keller Williams Edge | Pretoria, South Africa

- Maintained and tracked client records and interaction data using CRM systems.
- Prepared property documentation and marketing materials, ensuring data accuracy and consistency.
- Handled a high volume of daily client calls, logging and organising lead data for follow-up.
- Worked independently while managing competing priorities in a target-driven environment.

SKILLS

Data & Analytics: Python, Excel (Formulas, Pivot Tables, Data Cleaning), Power BI, Data Visualisation, Dashboard Design, Reporting

Development: HTML5, CSS3, JavaScript (ES6+), React, React Native, Supabase, PostgreSQL

Tools: Git, GitHub, Netlify, VS Code, Google Workspace, Microsoft Office, Notion, Trello

FEATURED PROJECT

Ledger - Personal Finance Dashboard (HTML, CSS, JavaScript) | Live: [ledgerfin.netlify.app](#)

- Designed and developed a responsive interface for structuring and presenting personal financial data.
- Applied visual hierarchy and layout principles so users could interpret their financial data at a glance.
- Full data analytics examples and additional dashboards available in the portfolio linked above.
